Atwood Management Announces Rebrand and New Leasing Office

Mankato, MN (February 3, 2020) – Atwood Management, formerly Atwood Property Management, is pleased to announce the company has rebranded—revealing a new name and logo that signifies their continued commitment to innovation, collaboration and excellence. In addition, Atwood Management announces the opening of a new leasing office on the ground level of the Atwood Plaza building at 209 S 2nd Street, Ste 100 in City Center Mankato. This new office provides easy access and convenient parking for tenants.

“We are excited to reveal a contemporary, modern name and look for Atwood Management,” said Matthew Atwood, president and owner of Atwood Management. “While our refreshed identity better reflects our company today, our tenants and investors can continue to expect the same unparalleled service and quality they’ve come to expect from Atwood Management.”

Atwood Management’s longevity and growth in south-central Minnesota is well represented in the visual identity of the new brand. The unique tree rings represent the four generations that make Atwood Management one of Minnesota’s oldest family owned and operated leasing and management firms.

Frederick Atwood founded Atwood Land Company in 1934. In 1954, his son, Charles Atwood, joined the firm and focused on multifamily development to grow the rental market in southern Minnesota. Continuing the family tradition, Charles Atwood’s son, Tom, joined the company as Resident Manager in 1981. Today, two of Tom Atwood’s sons, Matthew and Michael Atwood, lead Atwood Management. Growth, diversity, quality customer service and high ethical standards have always been an integral and consistent part of the Atwood Companies’ plan, providing south-central Minnesota with a strong portfolio of services including leasing assistance, rental management and association management.
